CODE OF ETHICS

National Code of Show Ring Ethics

As adopted by the C.C.J.L.A. (8/02)

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "National Code of Show Ring Ethics," fairs and livestock shows have rules and regulations which they impose on the local, county, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the Code of Ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this Code of Ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- Owners, exhibitors, fitters, trainers or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
- Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood or other substances from the animal to be used in testing.

Animals entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state or provincial statutes, regulations and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood or other samples taken from livestock indicates the presence of forbidden drugs or medications, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in questions and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock premises all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

- Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this Code of Ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this Code of Ethics. Violation of this rule shall subject such individuals to disciplinary action.
- The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer or participant whether

or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics.

- The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this National Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be shared with other fairs, livestock shows and organizations of fairs or livestock shows.
- The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer or absolutely responsible person that he or she has read the National Code of Show Ring Ethics and understand the consequences of and penalties provided for actions prohibited by this code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state or provincial statutes, regulations or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

WHOLESOME ASSURANCE ACT

The use by non-veterinarians of animal drugs or other substances in any manner other than in accord with the labeling approved by FDA is a violation of federal law. Abuse of the extra-label privilege by veterinarians is unethical and is subject to serious consequences such as license revocation.

Any food animal must not exceed FDA/EPA/USDA established tolerances for any foreign substance (identified or unidentified) including drugs, pesticides, feed additives or other chemicals. Violated results of residue testing are subject to investigation by USDA and FDA for prosecution. Any misrepresentation of a food animal that can potentially affect the acceptability of the carcass will be considered fraud.

CLARK COUNTY JUNIOR LIVESTOCK ASSOCIATION

The purpose of the Clark County Junior Livestock Show is to provide an opportunity for Southern Nevada youth to exhibit the products of their projects before the public, thus promoting and providing the incentive for achieving excellence in livestock production skills and practices. Such achievement and participation in shows encourages sportsmanship, leadership, citizenship, and responsibility in the members.

Through the judging and placing of entries, the modern livestock marketing standard is outlined, thus educating members, leaders and parents regarding the livestock industry trends.

As part of the show, the Show Committee offers the Junior Livestock Sale to make premium livestock projects available to the public.
